

ACRYLIC TECHNIQUES

Wet-on-Wet Blending

Blend wet acrylic paint into wet paint to create smooth gradients, soft skies, water and seamless colour transitions.

Crosshatching

Build tone, texture and depth using layered intersecting brush marks with acrylic paint.

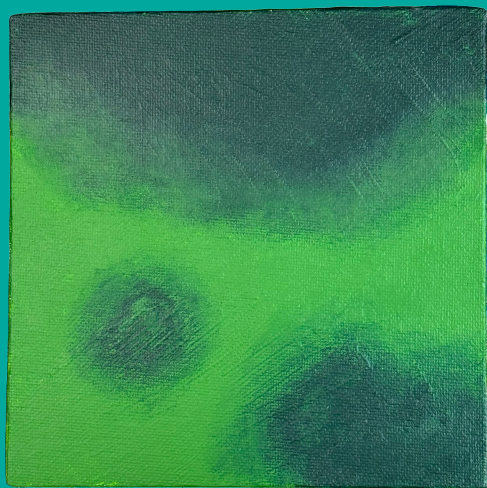

Scumbling

Lightly drag a dry brush over paint to create broken colour, soft texture and atmospheric effects.

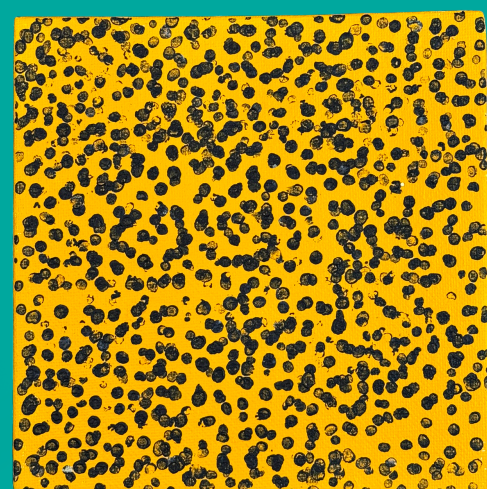

Sponging

Create natural textures and organic patterns using a sponge, ideal for foliage, clouds and stone.

Wet-on-Dry Blending

Blend over dry paint for controlled shading, soft transitions and transparent colour layers.

Stamping

Use everyday objects to create repeated patterns, textures and decorative surface effects.

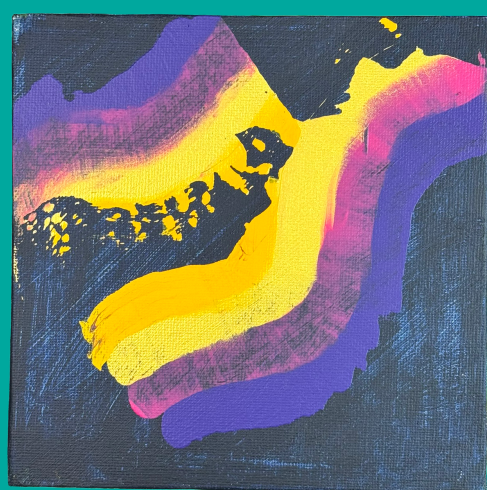

Dry Brush

Use minimal paint to create textured marks, highlights and natural surface effects.

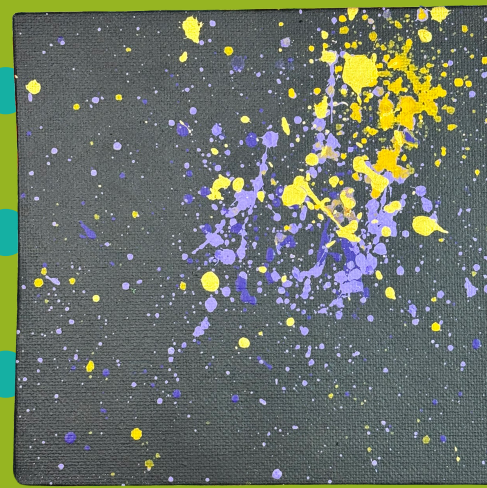

Masking

Protect areas of your painting to achieve crisp edges, clean shapes and preserved highlights.

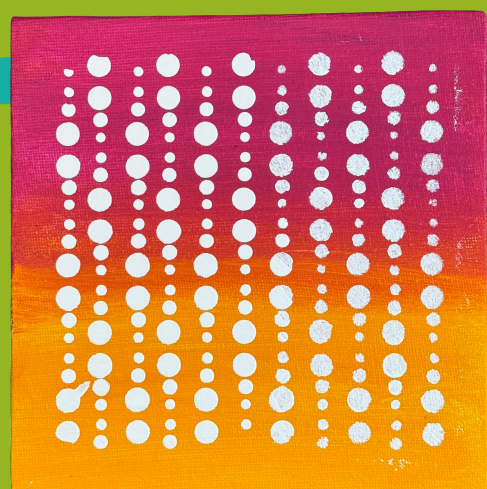

Colour Scraping

Scrape wet acrylic paint to reveal layers and create bold texture and expressive marks.

Splattering

Add energy, movement and texture with controlled acrylic paint splashes.

Stencilling

Build clean patterns, shapes and decorative details using acrylic paint and stencils.

Palette Knife Painting

Apply acrylic paint with a palette knife to create bold texture and expressive mark making.

Collage

Combine acrylic paint with collage to add texture, depth and mixed media interest.

Glazing

Apply transparent layers of acrylic paint to build depth, richness and luminous colour.

Watercolour Effect

Dilute acrylic paint to create soft washes and transparent watercolour-style effects.

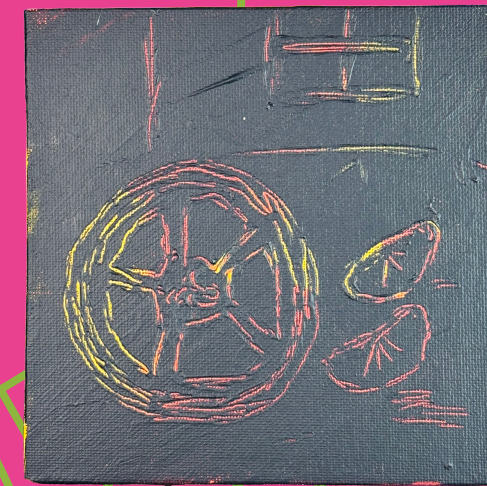

Stippling

Build tone, texture and detail using repeated dots of acrylic paint.

Layering

Build successive layers of acrylic paint to create richer colour, depth and detail.

Sgraffito

Scratch into wet acrylic paint to reveal underlying layers and create textured lines.

Impasto

Apply thick acrylic paint to create bold texture, visible brush marks and expressive surfaces.
